AI & DATA SCIENCE ENGINEERING STUDENT

03

AI PROJECTS SHIPPED

15

DAY ML INTERNSHIP

7.5

CGPA · B.TECH AI&DS

91%

NPTEL SCORE

9345999307 · d.deenathayalan5407@gmail.com · Puducherry, India · linkedin.com/in/d-deena-thayalan

SKILLS

Python	Java
C	R
HTML/CSS	Django
Git & GitHub	VS Code

STRENGTHS

Problem Solving · Fast Learner
Time Management · Team Collaboration

EDUCATION

B.Tech, AI & Data Science

Dr. N.G.P. Institute of Technology

2024–2028 (Yr 3) · CGPA 7.5

HSC (12th)

Amalorpavam HSS · 75.8%

SSLC (10th)

Amalorpavam HSS · 73.2%

CERTIFICATIONS

- Full Stack Web Development — Python & Django (36 hrs), 2025
- MathWorks Training Services, 2024
- Hackathon Participant — Suguna College, 2025
- Startup Submit — Participant, 2025
- JavaScript Programming — 85%
- NPTEL Certification — 91%
- AI/ML Internship Certificate — DLK Technologies (15 Days)

01 PROFILE

Third-year B.Tech AI & Data Science student who learns by shipping — three self-initiated AI projects and a 15-day industry ML internship within a year, backed by consistent algorithmic practice on LeetCode. Comfortable building end-to-end Python prototypes, with a focus on applied AI in education, sports, and health. Seeking a software/AI engineering internship to apply this energy at production scale.

02 PROJECTS

2025

AI-Powered Scholarship Finder

- Built a Python-based search-and-recommendation tool that matches students to relevant scholarships using AI-driven filtering, cutting manual research time.

github.com/deenathayalan-d4/scholarship-finder

2026

AI Coach — Sports Performance System

- Built a Python model that analyzes athlete performance data and generates personalized training recommendations.

github.com/deenathayalan-d4/AI-Coach-App

2026

LeetCode Tracker

- Built a personal Python tool to log, tag, and visualize DSA problem-solving progress, turning ad-hoc practice into a measurable, trackable habit.

github.com/deenathayalan-d4/Leetcode-Tracker

In Progress

CalorieGram

- Developing a computer-vision food-recognition app that estimates calorie content directly from a meal photo.

03 EXPERIENCE

2026

AI/ML Intern

DLK Technologies, Chennai · 15-Day Hands-on Internship

- Completed a 15-day intensive industry immersion in core AI/ML workflow — data collection, preprocessing, and model building — under mentorship from industry practitioners.
- Translated classroom fundamentals into hands-on, guided exercises, gaining early exposure to how AI/ML projects are scoped and structured in professional setting.
